AI Challenges

AI systems need data.

AI systems need to be secure, trustworthy, accountable.

We help: getting there, **legally**.

Challenges

Data Protection Acts

Rules and Penalties

Data sovereignty

Data ownership in digital world.

Technical Guarantee

Technical guarantee that data is used only for the purpose agreed.

Solution - TEE

MSME Loans – Underwriting & Prediction Engine

TEE

Private Inferencing

Secure data sharing

Private Training

Privacy preserving
bulk data

Verify Agent

Evidence based AI
actions

Private Inference

- Secured via Cryptography.
- No external dependency.
- Customizable Solution.
- Specialized hardware protected environment.
- Modular - Process and yield.

Private Training

- Trust and Accountability
- Customer centricity - Consent
- Human in the loop.
- Blockchain level features – Identity, Provenance.
- Large data sets privacy preserving nature.
- Continuous Improvement.
